

ePNJPOS Quick Install Guide

Java Install Required

Java is required to install **ePNJPOS 3**. Java is integral to the intranet applications and other e-business solutions that are the foundation of corporate computing.

1. Using your Internet Explorer Browser, go to www.Java.com
2. Confirm you have installed the **latest version of Java**.

ePNJPOS Install Instructions

3. Log in to your **eProcessingNetwork** account at www.eprocessingnetwork.com/msclogin.html
4. If this is your first login to your account, agree to the terms at the bottom of the page, and change your password. **Password Changed Successfully** message will display.
5. Select **ePNJPOS Config** from the drop down menu; click **GO!**
6. Scroll to the bottom of the page and click **ePNJPOS Download**.
7. If you have verified the **Java** on your computer, click the **ePNJPOS 3 Download** button.
8. Install the software by following the prompts on the screen.
9. When prompted, enter your name and your company name; click **Continue**.
10. Continue the installation until **Finish button** displays. You will be prompted to activate **ePNJPOS**.

Activation of ePNJPOS

11. Select the option "**I do not have a terminal key to enter**". Click the **Continue button**.
12. Enter your eProcessingNetwork account number/username and password. (Same as the website login) Click the **Continue button**.
13. Name the terminal, and set the transaction types it can process.
14. You may click the **Continue button** to use the default logins; **Successfully Activated!**

Terminal Assistant Settings
