*the **everywhere** Processing Network™*

Added Features

Enhanced
*e*PNPCLevel III

123

Making Purchase Card Acceptance even Easier and MORE Profitable!

For merchants already processing B2B, B2G and PCards through the *ePN* Online Terminal, **eProcessing***Network* has added the following NEW features to *e***PN**PCLevel III to further ensure that the merchant qualifies for the LOWEST rates possible:

- Default values available for all required Level III data fields
- Automatic incremental numbering of the PO# field available

The new features help the merchant automatically provide the required processing details needed for Level III transactions in order to qualify for the lowest interchange rates possible.

For more information on how the Enhanced *e***PN**PCLevel III product can help your merchant attract larger customers and save money, contact your *ePN* Representative!

Call (800) 296-4810 today!
